

Cell phone: +(33) 06 37 63 19 59

E-mail: esappey@gmail.com

Address: 38, rue des Remparts d'Ainay - 69002 Lyon

Nationality: American and French

Born in August 16th, 1990 in San Francisco, United States of America

Elliot Sappey-Marinier

Education

2008-2014: Medical studies at the Medical Faculty Lyon-Est, University Hospital of Lyon

2014-2019: Residency in orthopaedic surgery at the Medical Faculty Lyon-Est, University Hospital of Lyon

Ten hospital semesters including:

- November 2014: Orthopaedic unit of Dr Dejour
- May 2015: Orthopaedic unit of Dr Martres
- November 2015: Orthopaedic unit of Dr Roussouly
- May 2016: Orthopaedic unit of Pr Chotel
- November 2016: Orthopaedic unit of Pr Neyret, Pr Servien & Pr Lustig
- May 2017: Orthopaedic unit of Pr Fessy
- November 2017: Orthopaedic unit of Dr Thauinat
- May 2018: Orthopaedic unit of Pr Fessy
- November 2018: Unknown
- May 2019: Unknown

Other diploma

First Certificate of English in 2005

Baccalauréat S in 2008

Master degree in biomechanics in 2017: the effect of the thickness of the tibia bone cut on the frontal laxity during a TKA procedure.

Foreign languages

Fluent in English

Middle level of Spanish

Teaching course

Orthopaedic lessons for medical students in 4th year of medical studies (6h per year) 2016-2018

Orthopaedic lessons for medical students in 5th year of medical studies (6h per year) 2016-2018

Orthopaedic lessons for medical students in 6th year of medical studies (12h per year) 2016-2018

Publications

Papers:

E. Sappey-Marinier, N. White, R. Gaillard, L. Cheze, E. Servien, P. Neyret, S. Lustig: Increased valgus laxity in flexion with greater tibial resection depth. KSSTA 2018 May.

A. Madelaine, G. Fournier, **E. Sappey-Marinier**, T. Madelaine, N. Lefevre, F. Chotel, the French Arthroscopic Society: Conservative management of Anterior Cruciate Ligament injury in pediatric population: about 53 patients. Article in submission at OTSR

E. Sappey-Marinier, A. Viste, Y. Blangero, R. Desmarchelier, M-H. Fessy: Do dual mobility cups increase the incidence of femur peri-prosthetic fracture? Article in submission at International Orthopedics

Book Chapters:

C. Batailler, **E. Sappey-Marinier**, N. Bonin: Complications of FAI surgery: a highlight of common complications in published literature. Diagnosis and management of Femoroacetabular Impingement., Chapter No. 17: 229-240, 2017. Springer

E. Sappey-Marinier, N. White, E. Servien: Lateral retinacular release. Patellar instability and dislocation: Classification and Operative Techniques. Wolters Kluwer. Chapter in press

E. Sappey-Marinier, A. Viste, M-H. Fessy: Do dual mobility cups increase the incidence of femur peri-prosthetic fracture? La double mobilité en marche. Elsevier Masson. Chapter in press

Oral Communications:

E. Sappey-Marinier, N. Bonin: Protocole de récupération rapide après prothèse totale de hanche – effet sur la diminution de la durée de séjour et la satisfaction des patients. 90th Annual SOFCOT meeting. Paris, France, 9-12Nov 2015.

E. Sappey-Marinier, N. White, R. Gaillard, L. Cheze, E. Servien, P. Neyret, S. Lustig: Consequences of tibial cutting height in the frontal laxity: a biomechanical cadaveric study. 92th Annual SOFCOT meeting. Paris, France, 5-8Nov 2017.

E. Sappey-Marinier, A. Viste, R. Desmarchelier, M-H. Fessy: Comparative study between dual-mobility vs. Single-mobility cups in primary THA: incidence of dislocation and peri-prosthetic fracture. 3rd Spring SFHG meeting. Lyon, France, 23Mar 2018.

E. Sappey-Marinier, N. White, R. Gaillard, L. Cheze, E. Servien, P. Neyret, S. Lustig: Increased valgus laxity in flexion with greater tibial resection depth. 19th Annual EFFORT congress. Barcelona, Spain, 30May-1June 2018.

Posters:

S. Lustig, **E. Sappey-Marinier**, P. Neyret, E. Servien: Indications and current results of rotating hinge arthroplasties. Patellar issues. 38th SICOT Orthopaedic World Congress. Cape Town, South Africa, 30Nov-2Dec 2017.

E. Sappey-Marinier, N. White, R. Gaillard, L. Cheze, E. Servien, P. Neyret, S. Lustig: Increased valgus laxity in flexion with greater tibial resection depth. 18th Annual ESSKA congress. Glasgow, Scotland, 9-12May 2018.

E. Sappey-Marinier, A. Viste, R. Desmarchelier, M-H. Fessy: Comparative study between dual-mobility vs. Single-mobility cups in primary THA: incidence of dislocation and peri-prosthetic fracture. 19th Annual EFFORT congress. Barcelona, Spain, 30May-1June 2018.

E. Sappey-Marinier, N. White, R. Gaillard, L. Cheze, E. Servien, P. Neyret, S. Lustig: Increased valgus laxity in flexion with greater tibial resection depth. 8th World Congress on Biomechanics. Dublin, Ireland, 8-12July 2018.
